Observations

1. This quipu is associated with quipus AS59-AS67. See discussion under AS59.
2. All pendants are colored B:W. Each has a value 7 or less and each has a subsidiary colored MB whose value is 1 or 2.
3. The top cord is the color of the pendant cords, and its value is the sum of the pendant values. The subsidiary is the color of the subsidiaries on the pendants, and its value is the sum of the subsidiary values.
